

Airport solutions by Metagro – Tailored to your needs. Made in Austria.

We specialize in the design and manufacturing of high-quality stainless steel appliances tailored to the unique needs of airports worldwide. With a commitment to durability, hygiene, and sleek design, we provide a vast range of products, including stainless baggage conveyors, security checkpoints, lockers as well as food service equipment, all meticulously engineered to withstand the rigorous demands of airport environments.

Our innovative solutions not only enhance operational efficiency but also elevate the aesthetics of airport facilities.
